SKILLS

Core Web Technologies
HTML5, CSS3, SASS/SCSS, Javascript, TypeScript

Frameworks & Libraries
Angular 2+, Redux, RxJs, Angular Material, Cypress, Bootstrap, Tailwind CSS

APIs & Backend
RESTful APIs, Php, Symfony

Version & Packages Control
Git, GitHub, NPM/Yarn

Tech I'm Currently Exploring
CPACC Certification, Docker, CI/CD

Design & Project Management
Agile/Scrum Principles, Jira, Miro, Figma

LANGUAGES

Italian | Native

French | B2/C1

English | B2

As a Front-End Developer with 6+ years of experience, I love bringing ideas to life through intuitive interfaces that make everyday interactions smoother and more enjoyable.

Specialized in the Angular ecosystem, I'm a curious mind who loves exploring new technologies, refining best practices, and finding smarter ways to build high-impact digital experiences. I'm currently deepening my expertise in web accessibility.

EXPERIENCE

SOFTWARE ENGINEER — Sep 2025 - Mar 2026

Dougs Compta | Lyon, Auvergne-Rhône-Alpes, France • Remote

- Championed web accessibility at company level, raising awareness of legal obligations and driving the organisation to appoint dedicated owners and kick off a structured remediation effort.
- Contributed to the development of online cash register and e-commerce features, building the tools required for their related tax declaration workflows.
- Redesigned the charts on the performance page, overhauling their color scheme to improve contrast and readability.
- Collaborated with the front-end team to keep the application up to date, and to improve both app and test performance.

FRONT-END DEVELOPER — Jun 2021 - Jun 2025

Tiime | Paris, France

Collaboration was at the heart of my work: working closely with product and UX teams to develop scalable, reusable UI components that improved performance and maintainability. Beyond my core role, I actively took on minor back-end tasks.

Features I'm proud to have contributed to:

- Revamping core credit card functionalities, streamlining the creation and management of virtual and company cards to enhance user experience and operational efficiency.
- Implementing Strong Customer Authentication (SCA) and user privilege management, ensuring top-tier security while maintaining compliance with financial and privacy regulations.
- Partnering with the QA team to establish an automated end-to-end test environment, reducing production bug reports on the front-end side.

IT ENGINEER — Sept 2019 - Jun 2021

RS2I | Levallois-Perret, France

I built client-specific interfaces for business process management, turning massive datasets and workflow tracking into intuitive visualizations. Performance and scalability were top priorities.

I loved to:

- Optimized data structures and tailored business flows to ensure the interface scaled effortlessly as data grew.
- Work remotely with globally distributed teams in both English and French.
- Act as a bridge between technical and non-technical stakeholders, simplifying complex concepts, keeping everyone aligned, and empowering informed decision-making.

EDUCATION

WEB DEVELOPMENT WITH SYMFONY 6 — - Feb 2019

SensioLab | Paris, France

JAVA J2EE DEVELOPER

May 2019 - Sept 2019

EduGroup | Paris, France

MASTER OF ARTS, ENTERTAINMENT, FASHION & DIGITAL ARTS

Sept 2014 - Mar 2017

Sapienza University of Rome | Rome, Italy
Final score: 110 Summa cum Laude/110

WEB MASTER

Sept 2014 - JUN 2015

Accademia Anja | Rome, Italy
Certifications obtained: PHP Developer Fundamentals on MySQL®

DEGREE IN CULTURAL HERITAGE SCIENCES

Sept 2010 - Jan 2014

University of Milan | Milan, Italy
Final score: 105/110
