SKILLS

Core Web Technologies

HTML5, CSS3, SASS/SCSS, Javascript, TypeScript, WCAG 2.1

Frameworks & Libraries

Angular 2+, Redux, RxJs, Angular Material, Cypress, Jest, Bootstrap, Tailwind CSS

APIs & Backend

RESTful APIs, Php, Symfony

Version & Packages Control

Git, GitHub, NPM/Yarn

AI Tools & Integrations

Claude Code, OpenAI Codex, GitHub Copilot

Tech I'm Currently Exploring

WAS Certification, Docker, CI/CD

Design & Project Management

Agile/Scrum Principles, Jira, Miro, Figma

LANGUAGES

Italian | Native

English | C1

French | B2/C1

I'm a **Front-End Developer** with 6+ years in the **Angular** ecosystem. I came to tech through the **humanities**: trilingual, trained to think about language, context and how people make sense of things. I believe that's an edge: good interfaces don't just function, they **make things easier**.

I'm currently working toward my **IAAP WAS accessibility certification** and exploring **AI tools** through hands-on training work. I care deeply about how these tools get used in practice: **product quality, developer accountability and accessibility** matter to me as much as the technology itself.

EXPERIENCE

AI TRAINER & DATA ANNOTATOR

Apr 2026 - Present

Mercor.io | Remote • Freelance

I train AI models for **software usage assistance**, applying a **reverse engineering approach** to analyse outputs and identify reasoning gaps. I design **evaluation rubrics** to annotate and correct model responses, improving accuracy and reasoning performance.

SOFTWARE ENGINEER

Sept 2025 - Mar 2026

Dougs Compta | Lyon, Auvergne-Rhône-Alpes, France • Remote

- Championed **web accessibility** at company level, raising awareness of legal obligations and driving the organisation to **appoint dedicated owners** and kick off a structured remediation effort.
- Built **online cash register and e-commerce features**, including the tools needed for their tax declaration workflows.
- Redesigned the **charts on the performance page**, overhauling their color scheme to improve **contrast and readability**.

FRONT-END DEVELOPER

Jun 2021 - Jun 2025

Tiime | Paris, France

Collaboration was at the heart of my work: working closely with product and UX teams, I developed **scalable, reusable UI components** that improved performance and maintainability.

- Revamped core credit card functionalities, streamlining how users create and manage virtual and company cards.
- Implemented Strong Customer Authentication (SCA) and user privilege management, ensuring **security and compliance** with financial and data protection regulations.
- Partnered with the QA team to establish an **automated end-to-end test environment**, reducing production bug reports on the front-end side.

The result: an app trusted by **over 300,000 users** and rated **4.8/5 on Google**.

IT ENGINEER

Sept 2019 - Jun 2021

RS2I | Levallois-Perret, France

I built client-specific interfaces for business process management, turning **massive datasets** and workflow tracking into intuitive visualizations. **Performance and scalability** were top priorities.

- **Optimized data structures** and tailored business flows to ensure the interface scaled effortlessly as data grew.
- Worked remotely with **globally distributed teams** in both English and French.
- Bridged technical and non-technical stakeholders, **simplifying complex concepts** and facilitating **informed decision-making**.

EDUCATION

WAS CERTIFICATION – WEB ACCESSIBILITY SPECIALIST May 2026 - Present

IAAP | Online

WEB DEVELOPMENT WITH SYMFONY 6

- Feb 2019

SensioLab | Paris, France

JAVA J2EE DEVELOPER

May 2019 - Sept 2019

EduGroup | Paris, France

MASTER OF ARTS, ENTERTAINMENT, FASHION & DIGITAL ARTS

Sapienza University of Rome | Rome, Italy

Sept 2014 - Mar 2017

Final score: 110 Summa cum Laude/110

WEB MASTER

Sept 2014 - Jun 2015

Accademia Anja | Rome, Italy

Certifications obtained: PHP Developer Fundamentals on MySQL®

DEGREE IN CULTURAL HERITAGE SCIENCES

Sept 2010 - Jan 2014

University of Milan | Milan, Italy

Final score: 105/110
